EVENTS & CELEBRATIONS

EN EL GRAND HOTEL CENTRAL

Barcelona's Grand Hotel Central has set new standards in contemporary luxury since it first opened in 2004 and with the passing years continues to delight and surprise visitors and locals providing experiences that are inextricably linked with the city of Barcelona. The building that accommodates the 147 room hotel and the Can Bo restaurant still has spaces to be discovered such as the 8th floor for private functions.

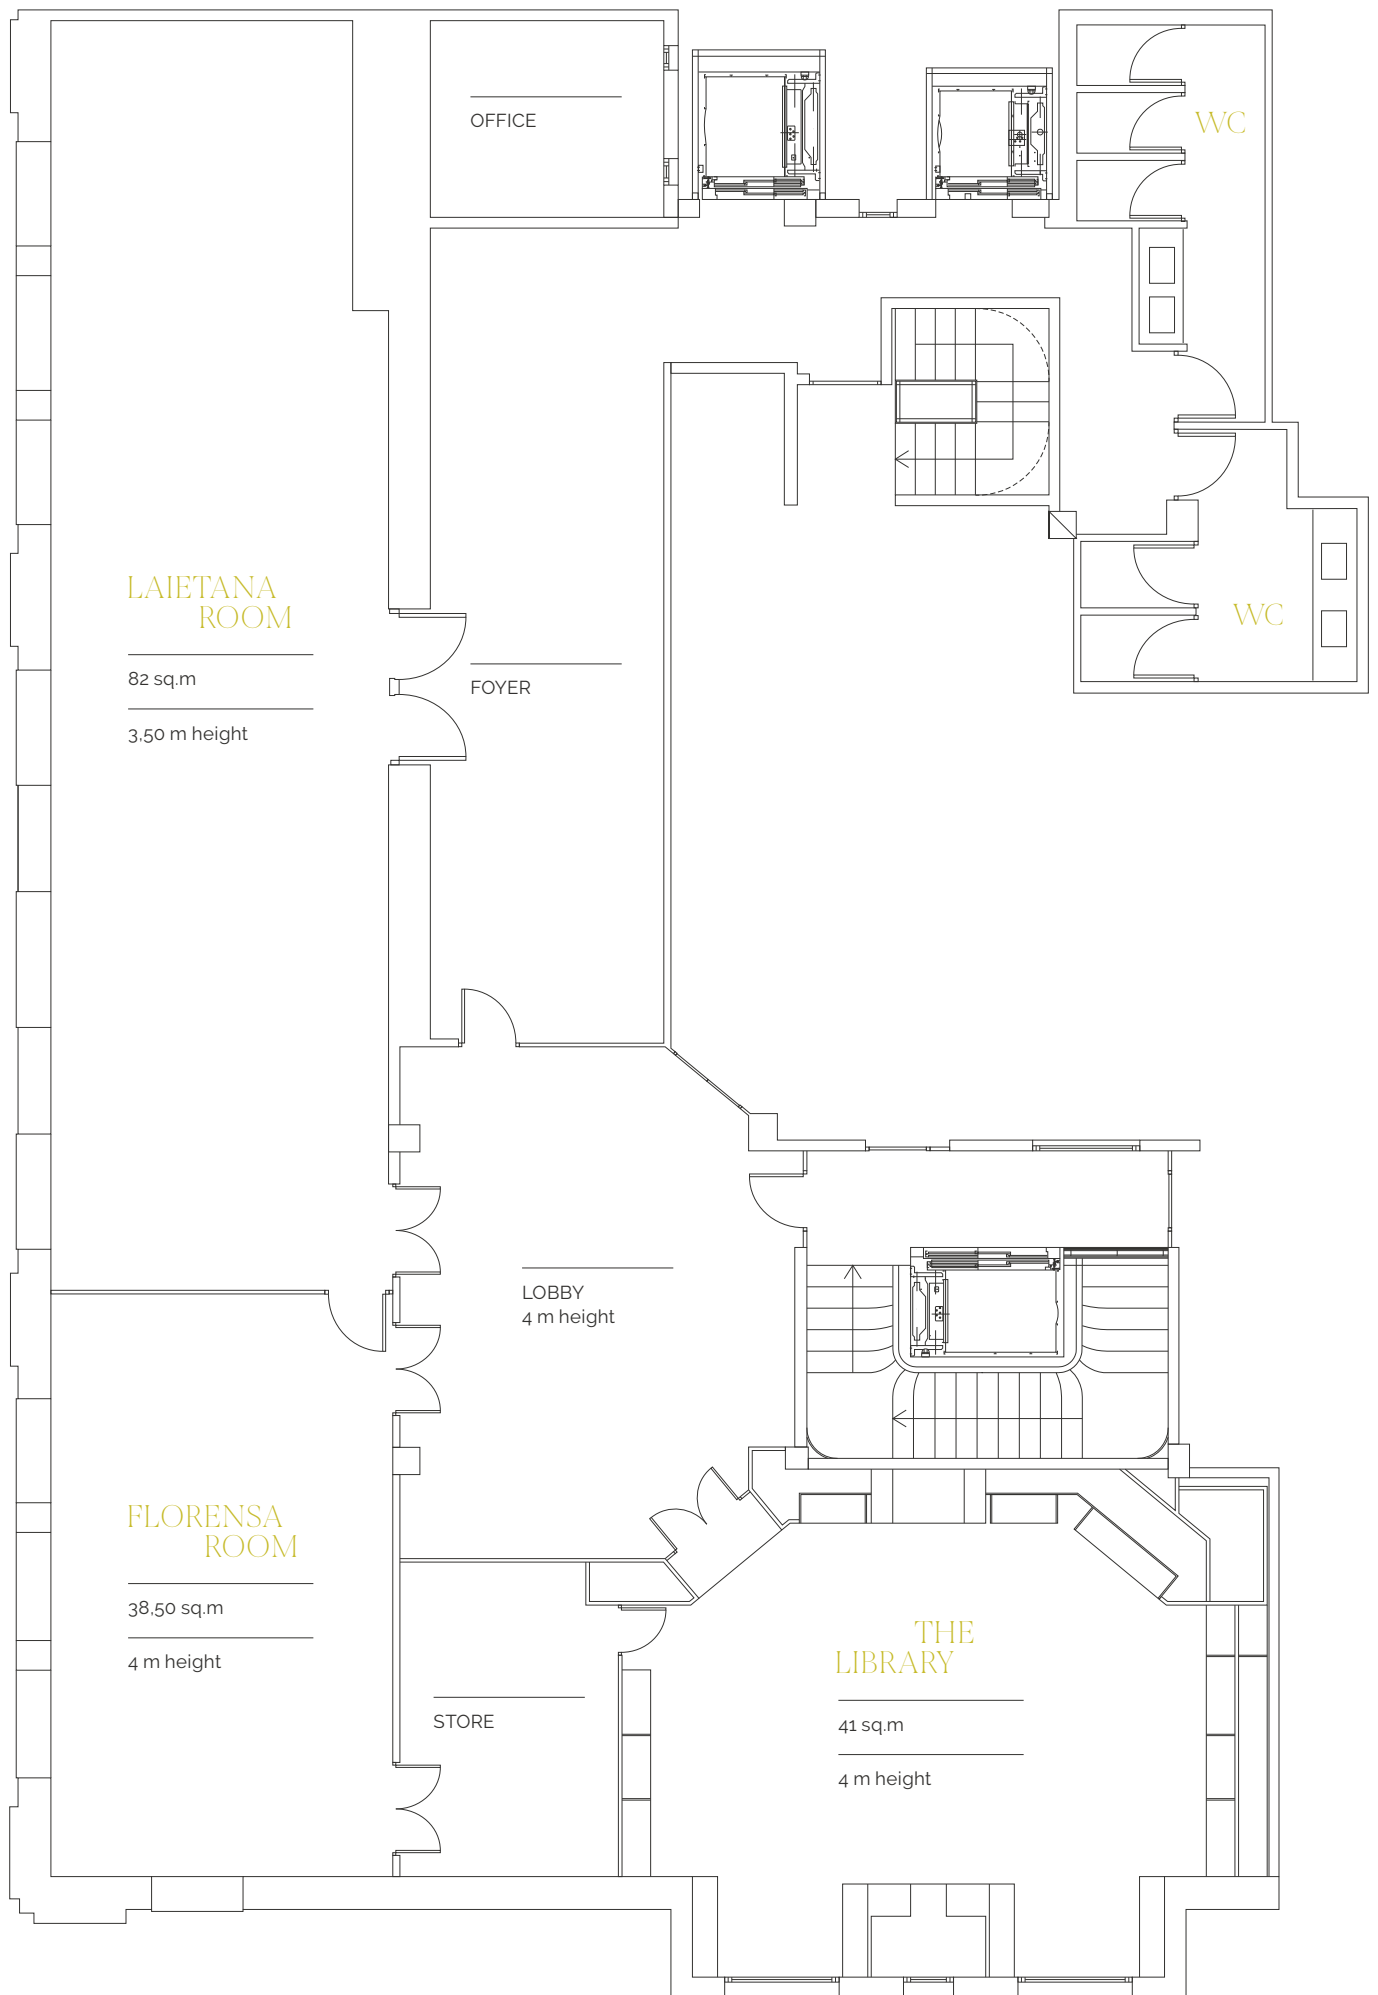

Above the rooftops of Barcelona, elevated in the skies over Via Layetana the Grand Hotel Central presents a chapter of the Barcelona history. A perfectly preserved suite of rooms now adapted to 21st Century standards of comfort for both citizens and visitors to use and enjoy, the ideal location for planning an event or a celebration where making an impact is called for. These spaces whether required separately for meetings, private lunches or dinners, product launches, press events etc. or as a collection of spaces for small weddings or corporate events will leave a lasting impression on all who attend. These rooms characterised by their French oak wall panelling, refined herring-bone pattern parquet flooring, art-deco ironmongery and original timber sash windows, will present your guests with an experience of travelling back through time to a period defined by its optimism and classic elegance.

This time capsule includes a number of spaces that have their own individual character but communicate with one another in such a way as to be able to cater to intimate private events, such as small wedding as well as more public ceremonies (total capacity of up to 120 for cocktail style presentations). All the spaces are equipped with the latest technology in terms of audiovisual systems, lighting and ambient comfort.

Below we present each of the events spaces individually, the ones located on the 8th floor and the others distributed over the other floors of the Grand Hotel Central.
