

SUSTAINABILITY REPORT

GRAND HOTEL CENTRAL

CARE CONNECT INSPIRE

At Grand Hotel Central, we believe that true excellence is built by caring for people, respecting the environment, and celebrating the essence of Barcelona.

We combine design, **wellbeing and responsibility** to create experiences that inspire and leave a lasting impression.

We understand hospitality as a genuine way of connecting, fostering positive impact both for those who visit us and for the city that surrounds us.

Every detail matters and every action reflects our commitment to a better world.

GRAND HOTEL CENTRAL

From the heart of Barcelona we embrace a more human and conscious model of hospitality, where **respect** guides every decision.

We work every day to create experiences that inspire, connect, and generate a **positive impact** on our surroundings.

Sustainability is not a project; it is our way of being in the world — an ever-evolving journey that shapes our actions.

PLANET

Protecting what inspires us

The energy we use, the resources we protect and the footprint we leave behind are all part of our **vision** for the future.

Each stay is thoughtfully designed to be more conscious and respectful of the environment.

We optimize energy and water consumption without compromising comfort, we choose **sustainable** materials and significantly we reduce the use of plastic.

We collaborate with reforestation projects that restore ecosystems and support communities around the world.

Every small change brings us closer to a more harmonious operating model with **nature** and reflects our commitment to protecting what inspires us.

PEOPLE

People at the center

We believe that hospitality begins with **people**: our team, our guests and the community around us.

We foster an inclusive and respectful working environment, full of **opportunities** to grow, learn and collaborate.

We support local initiatives that promote education, **inclusion** and social wellbeing. We offer our guests simple and meaningful ways to engage with these projects.

Every gesture strengthens connections and contributes to a closer, more conscious community.

Experience

For us hospitality is much more than a service: it is an **experience** that connects, moves and endures.

We promote **responsible tourism**, inviting our guests to discover Barcelona's cultural and natural richness in a respectful and conscious way.

Our culinary offering prioritizes local, seasonal and **nearby products**, bringing sustainability and flavor together in every dish.

Every detail of the experience is designed to create authentic **memories**, foster a genuine connection with the city and leave a **positive footprint** on the world we share.

RESPONSIBLE TOURISM
UNFORGETTABLE MOMENTS

Our Sustainable Journey

Every day invites us to innovate and protect what surrounds us.

We create **authentic** experiences that awaken **emotions** and celebrate the richness of our environment.

We continue to move forward with **passion** and **respect**, building a more conscious future for our guests, the city and the planet.
